

Coordinator's Notes

Overview

Mission Statement

Each member of the body of Christ is unique and it is vital that each of us be the best (me) that we can be. Then we will be able to help someone else to do the same.

Our Goal

To keep our lights shining as brightly as possible, living examples for God in an effort to win the unsaved to Christ Jesus.

Our Vision

That believers continually work towards the common goal of seeking the other person's highest good. To continually add new resources, nurturing sessions, and learning opportunities that will enable the body of Christ to be as dynamic and strong as possible. To be doers of the Word with boldness and enthusiasm and not hearers only.

Four Major Attack Areas of the Adversary:

- the Word of God
- the believer's mind
- financial freedoms
- constitutional freedoms

The Word of God is the foundational basis for each of the attack areas.

Satan will use relationships to strike a blow to God's heart

- individuals with God
- Christian with Christian
- USA with Israel

Genesis 3

Personal Profile Survey

Make notes! These questions are designed to help you in your goal formation. This survey will be used along with the motivational gifts survey and an understanding of your basic personality type.

Add to each question or answer as needed to give you the best base to work from.

Identify questions as body, soul, and spirit. You may also want to identify questions as building blocks (weaknesses) or foundation stones (strengths)

Read the notes on bottom of Page 6 before starting

Motivational Gifts Survey

Romans 12 (not necessarily a complete listing)

“Motivation” – anything that prompts a person to respond in a certain way

Motivational gifts must be understood first! (Gal 5) You will be tempted in that area! This is your identity, your self worth, what you will be judged by.

God wants us to find our fit and then use our gift. Live the Rebekah principle!

****the danger relative to the gifts of others: we resent their gifts when we should be celebrating their gifts! ****

Goals

It is a good idea to set goals in the areas of body, soul, and spirit.

You may want to set goals in the four major attack areas; i.e. the Word of God, the mind, finances, and/or governmental issues and freedoms.

I'd like to see goals that are personal and then some that are geared to helping someone else; a church, or whatever in the areas of building up, encouraging, and edifying the body of Christ.
